

11/23/2020

Sister and Brothers,

As you may have seen in the news, the State of Minnesota announced a free COVID-19 Exposure Notification App, COVIDaware MN. The voluntary app notifies you if you've been near someone who tested positive for COVID-19. If you test positive, you can use the app to anonymously notify anyone you've been near.

COVID-19 cases are surging in Minnesota and we all need to do our part. IBEW Local 110 is helping to get the word out because it has the potential to save the lives of countless workers and families, while we await vaccine approval & distribution over the coming months.

I urge you to share this information with your family and friends to encourage them to learn more about COVIDaware MN online, and download it from the Google Play or Apple App Store.

Together, we can use this new tool to make our workplaces and communities safer as we weather this pandemic.

In solidarity,  
Jamie McNamara
